

## Architectural Lighting Designer – 1-2 Years' Experience

### Come join our team!

Work on exciting **domestic and international** projects: high-rises, urban parks, theatrical and astronomical, private residences and public exhibits, progressive solutions in historic renovations, institutions but never institutional. **Experiment** with mock-ups in our in-house light lab, or on-site using a variety of light fixtures and materials. Gain hands-on **experience** with the latest lighting technology. Flex and broaden your design skills and make an impact in this rapidly changing industry.

Based in San Francisco, our firm has been at the forefront of design since 1972 and **we want to share** our knowledge and experience with you! **Enjoy autonomy** while being part of a **collaborative and multi-disciplinary** crew.

We are so proud of the clients we work with and the projects we work on. Here's a sampling that you may be familiar with:

- Pixar Animation Studios
- Boston University, Booth Theatre and College of Fine Arts Production Center
- Monterey Bay Aquarium
- Metropolitan Museum of Art, The Wrightsman Galleries
- Carnegie Hall, Zankel Hall
- Salesforce Transit Center
- MGM Grand Hotel and Casino, KA for Cirque du Soleil®
- Stanford University, Windhover Contemplative Center
- Dropbox Corporate Headquarters

Show off your **technology skills** in **Revit, AutoCAD, AGI32, and Bluebeam**. You know how to perform computer-generated and by-hand lighting calcs. You have a college degree in a related discipline, possibly even a master's, but you're still enthusiastic about learning. Bonus points if you know your way around Photoshop, InDesign, SketchUp, Rhino, and hand drafting. You'll engage with light fixture manufacturers and representatives to select products for projects and produce light fixture schedules based on design concepts. We hope you have **1 – 2 years of experience in architectural lighting design** and must insist that you are authorized to work in the United States.

Be part of a **strong, passionate, and industry-respected** design team. You will be given unwavering support and **experience that matters**. Here are few of the benefits you will enjoy:

- Premium-free health insurance
- Premium-free life insurance
- Paid vacation and sick leave
- Cell phone stipend
- Membership dues for selected professional organizations
- LEED exam, LC exam, and CLD application, and renewal costs
- 401(k) plan

AUERBACH·GLASOW

Architectural Lighting Design

We are currently working remotely from home, but plan to be back in the office soon. If you are living outside of the San Francisco Bay Area, we are OK with that for now. However, we are intending to increase our in-office presence as the country continues to open up. Eventually we will want you to come join us here. We will be working part-time in the office, part-time from home.

We are located in one of the most beautiful and progressive cities in the world. Our office is near the base of Telegraph Hill and a quick walk to North Beach, Chinatown, and historic Jackson Square where you'll find some of the oldest buildings in the city. Our expansive office windows illuminate a daylight-filled, **open studio**. Our location is a 15-minute walk to BART, the rail transit system that connects San Francisco with the peninsula and East Bay.

Are you ready to **let your talents shine** at Auerbach Glasow? If you have what we're looking for, please share a little bit about yourself and send your resume and portfolio to:
