

# Be part of a company that has been named a "Best Place to Work" the past 11 years in a row!

P2S, Inc. is growing rapidly, and we're seeking the brightest and most talented minds to be part of a different kind of sustainable design, commissioning, and construction management firm. If you're passionate about sustainability and have a desire to really make a difference, then you'll find your calling here.

We are currently receiving applications for a Summer internship with our **Long Beach, Irvine, or San Diego, CA** offices.

## Why P2S Inc

P2S sets itself apart through a problem-solving and collaborative approach that fosters long term client relationships built on mutual trust and respect. The trust and respect extend externally and internally with an open-door managerial policy at all levels and continuous ongoing evaluations of policies and practices from all levels of the company.

P2S sharpens the skill sets of its employees through frequent on-site training opportunities from new hires to seasoned professionals. In addition to our employee-driven company culture and research, P2S offers competitive compensation packages with premium benefits.

P2S sets itself apart through receptive management, strong core values and a renowned dedication to people and community. We work tirelessly to optimize efficiencies, save clients' money and help preserve the environment.

Specific internship details, responsibilities and qualification requirements are outlined below:

## Internship Program

Our internship program is designed to provide you with a positive work/training experience and challenging objectives that are consistent with your career goals and level of education.

As part of our internship program, we provide a robust experience both in the office and out in the field. As an intern, you will work alongside our engineers and project managers to directly contribute to client projects.

It is our goal to prepare our interns with real world experience in the industry. P2S will take interns to active project sites, tour the facilities and educate interns on current designs and deliverables. We strive to create a unique learning experience. We also

encourage our interns to take advantage of our internal training opportunities and company social events.

## **Schedule**

Summer Internship set to last 10-12 weeks; starting in May/June and ending in August/September depending on candidate's availability.

## **Minimum Requirements**

- Completed or pursuing an undergraduate or graduate degree in Electrical, Mechanical or Construction Engineering degree
- Cumulative GPA of 3.0 or above; submission of Official Transcripts will be required
- Ability to work effectively in a highly energetic and multiple-engagement environment, dedication to teamwork, a strong work initiative, and the ability to adapt to new challenges and ideas; detail oriented
- Technical proficiency in Microsoft products
- Experience with AutoCAD, Revit, EnergyPro, SKM, and ETAP strongly desired
- Strong communication and organization skills

If you believe you're a good fit for P2S we'd like to hear from you! Send us a cover letter along with your resume detailing why you'd be a great Intern to Patrick Burnside at [patrick.burnside@p2sinc.com](mailto:patrick.burnside@p2sinc.com).
