

# INVITING ALL ARCHITECTURAL ENGINEERING GRADUATES

Our client operates within the MEP industry!

## Project/Architectural Engineer Opportunity in Reading, PA

- Will be responsible for analysis, design, construction, and operation of residential, commercial, institutional, and industrial buildings. This client mainly focuses on commercial and institutional buildings. Will meet with customers to understand needs and run projects from start to finish.
- Skills with Revit and AutoCAD

### Client's Employee Value Proposition:

- Half days on Friday
- Opportunity to attain PE license
- Opportunity to become owner within the company

Actalent is the top engineering consulting and talent placement firm in the world! We offer full time opportunities with top engineering firms around the U.S through contract to hire opportunities as well as direct placement. We do the work FOR OUR CANDIDATES. In my territory, my account managers have built relations with their clients for 15+ years. Advantages of working with ACTALENT:

- You are not a resume in a company database, we receive immediate feedback from hiring managers, so you do not have to go through the long, frustrating waiting process.
- As a candidate we will continue to work with you even after you start a new role. We build professional relationships with OUR CONSULTANTS.
- We find opportunities that work FOR YOU, NOT FOR OUR BENEFIT!
