Beartooth Lighting Design is seeking a motivated student for a paid summer internship in Bozeman, Montana. The intern will experience a balance of technical & aesthetic aspects of lighting design and electrical engineering. This includes exposure to all phases of a project, from concept to construction documents and construction administration. Projects range across a broad spectrum of K12, higher ed, commercial, hospitality, and high end residential. Revit experience is a plus. Wages will be dependent on experience/ability, and qualified candidates may also receive a relocation stipend for travel to/from Bozeman for the summer.

Resumes can be submitted to andy@beartoothlightingdesign.com in order to schedule a video call/interview.
