

LIGHTING DESIGNER / ENGINEER

Career Opportunity

COMPANY DESCRIPTION

Clanton & Associates, Inc., located in Boulder, CO, is a lighting design and engineering firm that is nationally and internationally renowned as a leader in sustainable lighting design and engineering. With over 40 years of experience, Clanton & Associates combines design and technical excellence in lighting, daylighting, controls and electrical systems. Clanton & Associates works on a wide variety of project types including civic, academic, exhibit, hospitality, office, transportation, landscape, master planning, and urban environments.

AVAILABLE POSITION

This career opportunity is for a full time, entry to mid-level Lighting Designer to join our team in Boulder, CO. We are currently working in a hybrid mode, with a mixture of in-office and work-from-home. Our team has adapted well by utilizing on-line collaboration tools to their fullest extent and maintaining a cohesive team.

ROLE & RESPONSIBILITIES

- Support project managers on a variety of diverse project types
- Create and analyze lighting calculations using AGI32 lighting calculation software
- Perform analysis and create reports in Microsoft Excel
- Draft lighting and electrical plans from red-line markups
- Engage with industry representatives
- Support team with development of professional reports and presentations
- Attend project meetings with project managers and principals

QUALIFICATIONS & SKILLS REQUIRED

- Bachelor of Science in Architectural Engineering, Civil Engineering, Architecture or other related design degree
- Internship to 4 years experience
- Creative thinking and problem solving
- An appreciation and understanding of architectural design and building systems
- Visualization skills - sketching, rendering, modeling, and conveying lighting design concepts and technical information in graphic formats
- Good communication skills - written and verbal
- Proficiency in AutoCAD, Revit, AGI32, and Microsoft Office (Excel, Word, PowerPoint)
- Willing and able to self-learn new software

ADDITIONAL

- Visual Basic, SketchUp, Adobe Suite (Photoshop, InDesign), Microsoft Publisher, ComCheck, Matlab

COMPENSATION

Entry Level \$60,000 - \$65,000 / Mid Level \$65,000 - \$80,000
