

Mechanical Engineering Intern

DLR Group is an integrated design firm. Our brand promise is to elevate the human experience through design. If that challenge is appealing, you're at the right place.

DLR Group's Engineering team is looking for interns for the summer of 2022.

Location: Washington, DC, Cleveland, OH. Other locations may also be available.

As a Mechanical Engineering Intern, you will be part of a dynamic group of design-minded individuals learning what day to day activities go into the profession you have chosen. As part of our integrated design teams, you help create buildings that elevate the human experience through design.

Position Summary:

You will be responsible for working and learning in a dynamic and multidisciplinary design team to help produce mechanical engineering designs for commercial, educational, and municipal buildings of all sizes and complexities. The focus of this position is to assist members of the mechanical engineering team with developing concepts, calculations, modeling, drawing review, and project execution.

The successful candidate will:

- Collaborate with architects and other engineers as part of our integrated design process
- Learn the tools, technology and workflow involved with BIM and how today's engineers deliver successful projects
- Learn how the mechanical engineer works with other design disciplines throughout the course of the project
- Assist with shop drawings and mechanical submittals to learn the contractor side of the project
- Accompany engineers on site visits to project sites to see the real world results of what you do

Required Qualifications:

- Pursuing a Bachelor's or Master's degree in Mechanical Engineering or Architectural Engineering.
- Working knowledge of design codes
- Eager to learn about current engineering software
- Goal oriented with strong skills in problem solving, creativity, and attention to detail.

To apply, please send email of interest and resume to Roger Chang, Principal, at rchang@dlrgroup.com

DLR Group is an integrated design firm delivering architecture, engineering, interiors, planning, and building optimization for new construction, renovation, and adaptive reuse. Our promise is to elevate the human experience through design. This promise inspires sustainable design for a diverse group of public and private sector clients; local communities; and our planet. DLR Group is 100 percent employee-owned and fully supports the initiatives and goals of the 2030 Challenge and is an initial signatory to the China Accord and the AIA 2030 Commitment.
