

Established in 1954, North Shore Neon Sign Co. has been providing signage solutions in the New York Metropolitan region and its surroundings for over 65 years. Our fleet of installation vehicles and equipment are synonymous with Times Square, NYC Stadiums, and largest signage projects the city has to offer. North Shore Neon designs, fabricates, and installs these design build projects with their own in-house engineers, steel fabricators, and field crews.

North Shore Neon is seeking qualified applicants for an entry-level Project Engineer position to join our team in New York, NY. The candidate must be self-motivated, take ownership over their work, work well in a team environment, and have a willingness to learn. Ideal candidates will have a background in electrical, structural, or construction management.

Desired Skills:

- 0-5 years of experience
- Proficient in AutoCAD and REVIT
- Background in electrical, structural, or construction management
- Excellent organizational and communication skills

Primary Job Responsibilities:

- Organize incoming service requests from customers to ensure proper responses
- Engage with customers to confirm their needs are being met
- Internally coordinate daily schedules so projects are delivered on time
- Work with installation team to create schematic equipment layout plans for construction site logistics
- Review design documents and shop drawings for installation requirements
- Manage retail installation projects from start to finish
- Work with team members to contribute to company needs

Applicants should send their resumes to [chubben@northshoreneon.com](mailto:chubben@northshoreneon.com)
