Design Architect
We are seeking to add a Design Architect to our growing company. This team member must be creative and innovative. You will be an integral member of our design team creating concepts for a 110 year old, fourth generation, family owned, design-build firm with a stellar reputation within the financial industry. We are the best at what we do, work hard, enjoy our work and treat people right. We expect future team members in this position to possess the desired skills in order to be successful and best represent our company as a leader in innovative designs.

Ideal Skill Set
- Ability to manage multiple deadlines and priorities
- Great communicator
- Team player with client and fellow project team members
- Highly organized
- Thorough understanding of construction details
- Resourceful and imaginative
- Self-confident
- Independent thinker
- Highly motivated
- Excellent problem solving skills

Objectives of this Role
- Provide effective and creative schematic designs to meet project goals

Responsibilities
- Analyze project programming information to create preliminary designs of floor plans, site plans, and elevations
- Work within defined scheduling and budget parameters
- Generate and illustrate creative, innovative and workable design solutions
- Complete space planning and adjacency analyses
- Coordinate with multiple disciplines to integrate engineering elements into unified design
- Apply knowledge of design, construction procedures, zoning and building codes and building materials
- Determine functional and spatial requirements of new structures or renovations
- Formulate information regarding design, specifications, material, color and equipment
- Ensure compliance with the company’s quality assurance policies and project delivery procedures
- Work with team to complete construction permit drawings
- Follow company policies and design standards
- Stay abreast with latest developments in design technologies and techniques

Requirements
- Bachelor’s degree in Architecture or design related field.
- Registered Architect is preferred but not required. Minimum of 3-5 years of experience.
- Willingness to travel to job sites in various states with overnight stays required; estimated travel could be 4-8 nights per month.
- Demonstrated work experience with reputed architectural or design firms
- Experience in all stages of project delivery: Concept, Schematic Design, Design Development, Construction Documentation, and Construction Administration
