SCHRADERGROUP, LLC

Position: Structural/Architectural Engineer

Company Overview:

SCHRADERGROUP is a building design firm offering architectural, interior design and structural engineering services for a variety of building project types with specific expertise in the areas of academic and public safety facilities. Founded in 2004 and providing services from offices in Philadelphia & Lancaster, Pennsylvania, and Baltimore, Maryland, SCHRADERGROUP is recognized both locally and nationally for design that offers the highest degree of service to the user, responds to and respects both the built and natural environment, and demonstrates inspired aesthetics.

Job Description:

Structural / Architectural Engineer (PE) with a minimum of 8 years of structural design experience (buildings) to work in our Philadelphia office: we are seeking a new team member who is self-motivated, communicates well, and desires involvement in all aspects of project design and construction. Your day-to-day duties will touch on many aspects of design office operations: developing design concepts, computing structural engineering calculations, design coordination, producing structural construction documents, interacting with clients and consultants, field observations, construction coordination, and contract administration. You must be an organized, versatile, multi-tasker with a willingness to participate in the continued growth and success of our firm.

Requirements:

BS or BAE in Architectural or Civil engineering, structural engineering discipline, with a PE license.

Comprehensive understanding of building materials and their use & application in building design.

Working knowledge of Microsoft Office software (Word, Excel, Powerpoint).

Proficiency with REVIT Structural Modeling.

Ability to sketch and draw to convey ideas and concepts to those with whom you’ll work.

Benefits:

SGA offers a competitive salary and benefit package commensurate with your level of knowledge and experience including health and vision insurance, short- and long-term disability, 401k, and bonus structure.
