

PROJECT ENGINEER — DESIGN (FULL-TIME)

Requirements:

- * Bachelors Degree in Civil, Structural or Architectural Engineering
- * 2-5 years of experience in structural engineering design with active EIT certification
- * Proficient in Revit and AutoCAD
- * Experience with a variety of design and modeling programs including Bentley products (RAM Steel, RAM Concept, Elements etc)
- * Must have experience designing with a variety of materials including steel, concrete, masonry, wood, and familiarity with applicable codes (IBC, ASCE 7, ACI, AISC, etc.).
- * Strong oral and written communication skills are critical

Description:

Structura, Inc. is seeking an engineer with two to five years of building design experience to join the staff at any of its office locations (North Bethesda, MD ; Baltimore, MD ; Alexandria, VA ; Richmond, VA). Position requires the ability to work on a wide range of projects with a variety of construction materials. Proficiency with design and modeling programs including Revit, AutoCAD, RAM concept, RAM Steel etc. is essential. Experience with both new and existing structures is preferred. Candidate will work within a team structure on larger projects and will also manage projects and staff independently. Versatility and the ability to work on several projects simultaneously are necessary.

Job Type: Full-time

Please send resumes to Mark Erdman, PE at merdman@structura-inc.com.
