

Whitney, Bailey, Cox & Magnani, LLC (WBCM) is excited to announce that we are actively searching for a **Structural Engineer** to become an integral part of our growing Pittsburgh office.

**About us:**

Our award-winning Pittsburgh office Buildings Group currently employs 7 structural engineers, thus creating a small firm feel while providing all the advantages that a large multidisciplinary firm would offer (we have 220+ employees at WBCM with offices in Harrisburg, Philadelphia and Baltimore, MD). Our experience spans a broad range of market sectors and building types; including office, retail, parking, mixed use, educational, multi-family housing, residential, renovations, and adaptive reuse.

**Your qualifications:**

- Bachelor's Degree in Architectural Engineering (Structural emphasis), Civil Engineering (Structural emphasis), or Structural Engineering.
- Professional Engineer (PE) designation.
- 4-6 years of experience in building design.
- Flexible disposition and cooperative attitude, with a willingness to work independently as well as a member of a team on simultaneous projects.
- Excellent written and communication skills.
- Familiar with AutoCAD, Revit, RAM, and Microsoft Office programs.

**The work you will do:**

- Design, analysis, and detailing of structural steel, reinforced concrete, masonry, and wood structures for both new and renovations of existing structures.
- Develop and design lateral resistance systems.
- Coordinate structural documents with architectural, mechanical/electrical/plumbing, and civil disciplines.
- Create construction documents in AutoCAD and/or Revit, including framing plans, sections/details, and schedules.
- Prepare structural specifications.
- Provide construction phase services including submittal review, RFIs, and site visits.
- Provide condition assessments and structural evaluations of existing structures including preparation of reports.

**The rewards which await you:**

- An opportunity to work alongside the brightest minds in the industry.
- Excellent salary, paired with low-cost medical, dental, vision and prescription plan, flexible spending and health savings accounts, a generous 401k match, company paid life insurance, identity theft protection, employee assistance program, and membership in professional organizations.
- Generous Paid Time Off and Holidays.
- Flexible office hours and the potential for working remote.
- Tuition Reimbursement (up to \$10,000 annually).
- All the latest technology to perform your job with precision and professionalism.
- A convenient office location in Bridgeville, PA (a South Hills suburban city of Pittsburgh) with free parking.

This position will provide an experienced engineer with opportunities to learn, grow, and develop.
